Quality and innovation with international flexibility – an irresistible combination that has seen companies from 25 countries around the world come to rely on Husky manufacturing facilities.

Our factory is run by a dedicated Husky team of Western managers with many years’ experience in the industry. Our own in-house R&D team, designers, engineers, quality control department and fully-equipped and certified test laboratory mean that every part of the service expected by our international customers is controlled wholly by ourselves.

You can buy with confidence, knowing that design and manufacture is fully tracked and signed off, right down to the provenance of individual components.

Husky is proud to export to countries all over the world, working in conjunction with major brands including Coca-Cola, AB Inbev, Carlsberg, Diageo, and many more.

It’s been an exciting journey for Husky to become a global provider of quality refrigeration – and there’s so much more to come.
PRO range upright display chillers

- R290 refrigerant
- Fan block evaporator
- Full-length LED illumination
- Dairy specification
- Detachable canopy
- Digital temperature control

OPTIONS (available at additional cost):

Other colors on request

Available in White

Separate canopy may be retro-fitted in moments without special tools.

Canopy may be fitted or removed easily

LED lighting

Separate canopy can be retro-fitted in moments without special tools.

New aluminum door frames for a premium look.
PRO Below Zero range chillers

Serve beer colder than ice itself. This PRO range upright display chiller can dispense products as low as -3°C. The extra large display announces from a distance that truly frosted beer is ready and environmentally-friendly R290 refrigerant comes as standard.

PRO Intelligenzia range chillers

Save up to 40% on your energy consumption. This PRO range upright display chiller is equipped with a brilliant new Energy Management System that continually balances performance to usage so every kilowatt goes to chilling stock, not warming your premises. R290 refrigerant comes as standard, so it’s environmentally-friendly too.

PRO Cassette range chillers

Maintenance in moments. This PRO range upright display chiller has its entire R290 refrigeration mechanism mounted on a sled (the cassette) and is accessible from the front. So the cassette can be swapped out in moments by the most junior mechanic using a single screwdriver.

Easyfill RotoShelf® system

A fully-stocked, well displayed fridge encourages cold sales. The Husky RotoShelf® system is the easy way to restock for optimal results. Utilising a simple, reliable rotating shelf unit your staff can ensure your high traffic lines are always fully faced up, with oldest stock always at the front.

There are a range of options too for additional features such as shelf dividers, stoppers and rollers. Gravity feed is enabled as standard, and the RotoShelf® unit includes six shelves instead of five – a 20% increase in facings. Contact us today for more details and discover how easily you can improve your chilled offer.

Retail is changing. Connected technology means that automated, secure transactions via unattended point-of-sale is a reality.

Controlled by a phone app, customers can select, examine and return items. Activity is tracked by cameras, RFID sensors, machine learning, and weight-sensitive shelves. Only items finally selected are billed – instantly – to the payment method on file.

Web-connected monitors can display reactive, relevant ads and deals, changing them in real time. The only human input required is to keep the fridges stocked.

It’s an exciting new era for retailing, and Husky’s commitment to continuous innovation means we will be at the forefront of new PoS developments.

Benefits of the RotoShelf® system:
- Reduced cost of waste: Always using first-in first-out reduces waste caused by expired products.
- Save labour costs: Up to 75% reduced refilling time.
- Increased sales: Six shelves instead of five as standard – 11 additional facings – a 20% increase.
- Improved consumer experience: Always a cold product for the consumer.

Options include:
- Standard shelf
- Transparent front stoppers
- Rollers
- Dividers
- Freely adjustable shelves

Always first in, first out. Always a cold product.

Unattended, web-connected, interactive retail. It’s as easy as 1, 2, 3.

1. Unlock the fridge
   - Consumer identifies him/herself with credit card/NFC card/RFID token.
   - System unlocks the fridge
   - Consumer opens the door.

2. Take the fresh products
   - Consumer takes as many products as he/she wishes
   - Consumer can put products back into the fridge
   - Consumer closes the fridge door
   - System charges the consumer for products that have left the fridge.

3. Enjoy!
   - Consumer enjoys the fresh products, wrapped in minimal sustainable packaging.

Always first in, first out. Always a cold product.
Announcing the Husky PRO freezer range. Designed to complement the sweeping good looks of our top-selling upright chiller range, the new Husky PRO freezers make a perfect match; including advanced levels of insulation, environmentally-friendly R290 refrigerant, and features that other manufacturers might regard as optional extras.

An upright freezer is perfect for locations where space is limited – they hold a similar amount of stock as a chest freezer but in a much smaller footprint.

**Options**: available at additional cost
- Black door frames
- Wooden shelf fronts
- R600a refrigerant
- Stainless steel door frames
- Digital temperature control
- LED internal illumination

**On request**

Additional Specifications:
- Temperature Range (°C)
- Temperature Control
- Refrigerant
- Shelves
- Net External HxWxD (mm)
- Net Weight (kgs)
- Container Quantity (40’HQ)

*Note: All models come with standard features unless specified otherwise.*
Stainless steel upright refrigerators & freezers

- High ambient operating temperature up to 43°C
- Digital temperature control and locks
- Food grade stainless steel exterior and interior
- Automatic defrost
- Strong hinges – capable of withstanding enormous force

Specifications

- Food grade stainless steel exterior and interior
- Digital temperature control
- Rounded edges with no gaps in finish
- Easily removable interior components
- Four soft castors, two lockable
- Strong hinges for long lifetime of normal use

Stainless steel preparation counters

- Smooth edge, easy grasp handles
- Meets food storage requirements for temperature class M1 (+5°C/-1°C)
- Automatic defrost
- Self closing doors.

Specifications

- High ambient operating temperature up to 43°C
- Digital temperature control and locks
- Food grade stainless steel exterior and interior
- Automatic defrost
- Strong hinges – capable of withstanding enormous force
